

NAME: _____

Planning Your Build

Directions: Use the information you've learned in the lesson to answer the following questions. Be sure to complete the activity on the second page!

1. What materials do you need to build your MIDI instrument? Include the name of the invention kit you will be using.
2. What is the name of your MIDI instrument?
3. Will it resemble an existing instrument? If so, what?
4. What makes your new instrument unique? (eg. Does it fix an existing design flaw or solve a problem players might experience?) Explain.
5. How might you market your new instrument? In just a few sentences tell a potential buyer why they should buy your instrument. Please be specific.

Draw a picture of your new instrument. Include as much detail as possible

A large, empty rounded rectangle with a dark blue border, intended for drawing a picture of a new instrument. The rectangle is centered on the page and occupies most of the lower half of the document.
